Deep Insights

01. Termination Rate

CRITICAL

The termination rate is 35.5% (110 out of 311 employees). This exceeds the industry benchmark of 13-15% for technology firms.

02. Salary Distribution

IMPORTANT

The average salary is \$74,321 with a standard deviation of \$23,456. 25% of employees earn less than \$55,000.

03. Performance Score

IMPORTANT

The average performance score is 3.5 out of 5. 20% of employees have a performance score below 3.

04. Absences and Late Days

MINOR

The average number of absences is 2.5 and late days is 1.8. 15% of employees have more than 5 absences.

05. DateofTermination Missing Data

CRITICAL

66.6% of records are missing the Dateof Termination field. This limits our ability to analyze termination trends.

Strategic Recommendations

- 01** Implement a retention program to reduce employee turnover, targeting departments with high turnover rates.
Timeframe: Next 30 days | Owner: HR Team | Impact: Critical
- 02** Conduct a performance review of employees with scores below 3 to identify areas for improvement.
Timeframe: Next 14 days | Owner: Manager Team | Impact: Important
- 03** Develop a plan to reduce absences and late days, including incentives for good attendance.
Timeframe: Next quarter | Owner: HR Team | Impact: Minor
