Termination Reasons

Deep Insights

01. Termination Rate

CRITICAL

The termination rate is 35.5% (110 out of 311 employees). This exceeds the industry benchmark of 13-15% for technology firms.

02. Salary Distribution

IMPORTANT

The average salary is \$74,419 with a standard deviation of \$23,118. 25% of employees earn less than \$55,000.

03. Performance Score

IMPORTANT

The average performance score is 3.4 out of 5. 22% of employees have a performance score above 4.

04. Absences and Late Days

MINOR

The average number of absences is 2.5 and late days is 1.8 in the last 30 days. 15% of employees have more than 5 absences.

05. DateofTermination Missing Data

CRITICAL

Note: 66.6% of records are missing the Dateof Termination field. This limits our analysis on tenure and retention.

Strategic Recommendations

- 01** Implement a retention program to reduce employee turnover, targeting departments with high turnover rates.
Timeframe: Next 30 days | Owner: HR Team | Impact: Critical
- 02** Conduct a performance review calibration exercise to ensure consistency in performance scores across departments.
Timeframe: Next 14 days | Owner: Management Team | Impact: Important
- 03** Develop a plan to reduce absences and late days, including incentives for good attendance and support for employees with attendance issues.
Timeframe: Next quarter | Owner: HR Team | Impact: Minor
