Termination Reasons

# Deep Insights

## 01. Termination Rate

CRITICAL

The termination rate is 35.5% (110 out of 311 employees). This exceeds the industry benchmark of 13-15% for technology firms. Note: Dateof Termination has 66.6% missing records.

## 02. Average Salary

IMPORTANT

The average salary of employees is \$74,219. The highest salary recorded is \$124,321 and the lowest is \$41,105.

## 03. Employee Satisfaction

IMPORTANT

The average employee satisfaction score is 3.8 out of 5. 22.5% of employees have a satisfaction score above 4.

## 04. Absences and Late Days

MINOR

The average number of absences per employee is 2.5. 14.5% of employees have been late more than 5 times in the last 30 days.

## 05. Performance Score Distribution

IMPORTANT

The performance score distribution shows that 25.7% of employees have a performance score above 4, while 17.4% have a score below 2. Note: 34.1% of records have missing performance scores.

# Strategic Recommendations

**01** Conduct a thorough analysis of termination reasons to identify areas of improvement.

Timeframe: Next 30 days | Owner: HR Team | Impact: Critical

**02** Develop a plan to improve employee satisfaction scores, focusing on departments with low scores.

Timeframe: Next quarter | Owner: HR Team | Impact: Important

**03** Implement a program to reduce employee absences and late days, and monitor progress.

Timeframe: Next 14 days | Owner: Management Team | Impact: Minor
